

Steeple Claydon School and Nursery

Aims, Values and Ethos

At Steeple Claydon School and Nursery, we truly believe that every child has the right to be amazing and achieve their full potential, ready to leave school as confident, independent and curious learners. We have high expectations for both academic achievement and pastoral care. Every child here is a 'Steeple Star'.

Our school values and learning are underpinned by seven core learning skills/habits that have been chosen by the staff and children and which we regularly reward in school.

These are Resilience, Tolerance, Confidence, Curiosity, Determination, Independence and Positivity.

We are an inclusive school and every child is celebrated for their uniqueness. We work hard to ensure that we educate and care for the 'whole child' and that their needs are identified and addressed through personalised learning.

Our school plays a key role in the community and we value the links with our parents, Governors, Sure Start and other local agencies to provide a service to all our families.

We also promote the key British values of democracy, freedom of speech, tolerance and the rule of law through our assemblies and curriculum.

We welcome visits to our school to see our values and ethos in action!
